## MODERN BOUTIQUE LIVING IN THE CITY

Home is where you gather. Whether it's around the table or getting comfy on the couch, we know the importance of having spaces to connect in meaningful ways. That's why we've created apartment homes and shared common areas that are optimized for ease and togetherness.

## OUR APARTMENTS

We've created spacious units with efficiency and ease in mind. There are washer and dryers in most apartments, energy-efficient stainless steel appliances, and thoughtful details to make your space feel like a home.

## THE NEIGHBORHOOD

Whether you're literally or metaphorically writing that next chapter, at Jackson Street you can channel all your pursuits. You can have a work from home day at Broadcast Coffee downstairs and work on your latest side-project. On those days you need to pop into work, it's an easy commute, just hop on the bus and get there in less than 20. Set your imagination loose with a walk (and give your dog a little exercise too) at nearby Frink Park. Need some collaborations? Get together with buddies at Standard Brewing for happy hour. Nearby, there's also salsa dancing, a movie theater, trivia, the Pratt Fine Arts Center, and countless other opportunities for you to have new and memorable experiences.

### A PLACE TO GATHER

We know, we're pretty excited to get coffee, pastries, and Tex-Mex steps from our front door too.
